

Name _____

Teacher _____ Mrs J Williman _____

Year Group _____ One _____

Date due _ Friday 20th October 2017

Curriculum Theme

“All Around the World”

Half-Term Home Learning Grid

Reading for Pleasure – 10+ minutes every night Read by yourself or with a grown up each day. Remember to fill in your Reading Record books and discuss your stories as much as possible with someone at home.	Research Find out as much as you can about places your family have visited. These could be places close to home, or places abroad. Find out how they got there, what they did and what they saw.	Building and Making Build a model of any mode of transport that you like. If you are feeling particularly imaginative, create a brand new vehicle – perhaps one that can go in water and air?
Spellings Lists and Dictations You will have a spelling list to take home each week. You could learn your spellings by writing each one in a sentence that a grown up dictates to you.	Cooking and Baking Make a meal, cook some cakes or biscuits or make anything of your choice with a grown up. You can take photos, draw pictures, write a recipe or write some sentences about what you did in your homework book.	Designing and Creating Draw a map to a place of your choice – this could be a real or a fantasy place. Are there any secret doors / codes or modes of transport that need to be used?
Maths Complete a counting activity for example a traffic survey or ‘Favourite Mode of Transport’ quiz with a bit of help from your grownups at home.	Lend a Hand – A Random Act of Kindness! Support a family member, friend or neighbour with a task. Perhaps you could help to set the table for dinner or write a shopping list for a grown up. The possibilities are endless!	Music/Dance Do you play an instrument or enjoy singing or dancing? Write or draw pictures in your homework book about what you do or what you enjoy!
Sport/Being Active Do you play a sport or do an out-of-school club? Write or draw pictures in your homework book about what you do or what you enjoy! Think about how you are learning new and exciting skills and keeping healthy!	The Great Outdoors! Our science topic involved learning about our 5 senses. Go to your favourite outdoor place and write a list of all of the things you can see, hear, feel and smell. If you have a snack or picnic, write what you taste too!	Be Imaginative! Can you think of any other creative, imaginative and fun activities that are related to our topic? Write, draw or photograph your activities and the things that you discover and learn!

Complete the essential activities (the ones that are highlighted) every week and choose three or more others to complete each half term.

Research, think, plan, make, create, draw, imagine, design, find-out, study, learn, enquire, know, discover, dream
